

Facility Expansion - Able and Worthy

Ministry Moment

We wanted to share with you what has been going on with the Facility Expansion this week.

We had a very good all-church flock on Wednesday night. The interaction was very helpful. There were many concerns expressed that the Elders are taking into consideration. Listening to your input, talking with the builders this week and praying over what to do has brought the Elders to some important decisions. Let's talk about them for just a moment.

 A presentation slide titled "Remodeling" featuring an image of a church building with a red roof and blue accents. The slide contains a bulleted list of project details. The word "vision" is faintly visible in the background.
